# TELUS Business One Enhanced Bundle

## All your communication tools in one neat package

The Internet is changing the way small and medium businesses compete and conduct their day-to-day operations. High speed Internet, advanced email with BlackBerry® and other PDAs integration, Web sites, and off-site storage backup were once considered luxuries. Now they are “must haves” for businesses to survive in today’s global economy. Enhanced worker productivity, improved collaboration, cost-predictability, and expanded market reach are just some of the benefits TELUS makes available to your business. So, what are you waiting for?

### Enhance productivity, ensure cost-effectiveness

There’s no shortage of communication tools today. But managing them all to ensure that your business gets maximum value can be a big challenge. TELUS makes it simple.

The TELUS Business One® Enhanced Bundle brings together our most powerful voice, Internet and other business tools in one bundle – for one low price, on one easy-to-understand bill, with one technical support number.

### Everything at your fingertips

TELUS Business One provides all your key communication tools: business-grade managed high speed Internet services with proactive monitoring and a guaranteed service level agreement, as well as free productivity-enhancing business tools, such as Microsoft Exchange® email accounts and domain name.

## The Business One Enhanced Bundle includes:

### Key communication tools

- **Business Long Distance.** Sign up for one of our competitive month-to-month long distance plans with no commitment, or subscribe to one of our contacted Business Long Distance service plans to receive a preferred rate.
- **Managed Business Internet with unlimited usage.** Best-in-class reliability and service level guarantees. We automatically refund your money if your connection goes down, plus we credit your account without you having to call TELUS. Includes all hardware; installed and remotely managed by TELUS to ensure the highest level of service.

### Free, easy-to-use business tools

- **5 Microsoft Exchange® email accounts.** Anti-spam protection and secure Outlook® Web access with a customized business domain name, so you can check email anywhere, anytime, from any PC.
- **1 Registered domain name.** Register a new domain name or transfer your existing domain name to TELUS, at no charge.
- **1 Desktop Backup licence.** Use TELUS Desktop Backup to save your PC data and minimize the risks from possible crashes, viruses, hackers and other threats.
- **1 Shared Hosting account.** Use TELUS Shared Hosting to take your business online, and market your products and services to millions of potential customers.

### Preferred pricing on optional business tools

As a TELUS Business One client, you are entitled to additional benefits. For example, you will save when you:

- Purchase additional Microsoft Exchange® licences, or upgrade your licences to include powerful business features like BlackBerry integration
- Subscribe to Microsoft SharePoint®, a powerful collaboration tool that allows you to create and share documents, workspaces for meeting discussions, contacts, announcements and calendars

### Dedicated technical support

Call the exclusive TELUS Business One 24/7 technical support number and get help fast, from a real person. No additional numbers to press or voice prompts to navigate.
